Shuttle Traffic for October 2020

		Oct 20	Oct 19	Change	Jan-Oct 2020	Jan-Oct 2019	Change
Truck Shuttles	Trucks	142,542	153,600	-7%	1,174,081	1,342,350	-13%
Passenger Shuttles	Passenger vehicles*	92,458	205,371	-55%	1,275,772	2,276,721	-44%

* Includes cars, motorcycles, vehicles with trailers, caravans, campers and coaches.

In October 2020, **Le Shuttle Freight** saw traffic at pre-COVID levels with 142,542 trucks carried. This strong performance is down 7% compared to the record traffic of October 2019 which benefitted from a stockpiling effect due to Brexit expected on 31 October 2019. Since 1st January 2020, almost 1.2 million trucks have crossed the Channel on our Shuttles.

In October 2020, **Le Shuttle** transported 92,458 tourist vehicles, strongly impacted by travel restrictions put in place by the UK and other European governments. However, the level of traffic remains stronger than that of our competitors thanks to the competitive advantage of Le Shuttle, especially in terms of health, which offers a contactless journey from start to finish. Since the beginning of the year, nearly 1.3 million tourist vehicles have crossed the Channel on our Shuttles.

November traffic figures will be published on Monday 7 December before the markets open.
